With an exceptional academic staff, a wide range of educational opportunities, strong international connections and dedication to development, we are one of the leading universities in Turkey. Our students, who are eager to build upon their knowledge through dedicated research and who continually strive for self-development, are the foundation of our success. With such a student body, we aim to build the future together.

Situated in the heart of Istanbul, we are a global university providing students with the knowledge and skills they will need to succeed in their areas of expertise. Through the course of their education, our students develop a sense of responsibility and self-confidence, as well as the ability to foresee and shape changes in the world, not just follow them. We are always on the lookout for rare talent, and we encourage our students to become innovative, dynamic individuals who are critically aware.

Kadir Has University, apart from being a respected academic institution, also contributes to the vibrancy of Istanbul, supporting the economic, social and cultural development of our local area. We promote concerts, exhibitions and sporting events, and students have the opportunity to join a variety of clubs in addition to engaging with the social responsibility projects they undertake during the course of their studies. With the life-long education courses we offer, Kadir Has University is an energetic institution offering a wide range of opportunities for students, staff and the residents of Istanbul.

I invite you to join us on this exciting journey of education and progress, which is grounded in the philosophy that the key to success is self-improvement.

Prof. Dr. Mustafa Aydın
Rector
KADİR HAS

Our University’s founder as well as the first Chairman of its Board of Trustees, the late Mr Kadir Has, one of the leading philanthropists of Turkey and holder of the Distinguished Service Medal of the Turkish Republic, strove during his lifetime to, in his own words, “pay his debt to his country” believing that it was his debt of honour and obligation to Turkey to give back to his country what he had gained and to this end he systematically dedicated himself to philanthropy.

The Kadir Has Foundation (HASVAK) he started in 1991 with his wife Rezan Has has carried out very important services towards helping the country develop, especially in the fields of education and health. They bequeathed their entire estate to this foundation.

The late Mr. Kadir Has, who passed away in 2007 leaving behind immortal achievements, spoke of our university as “the realization of his biggest dream” and he continues to live with his principles, worldview and love of education in the philosophy of our university and in the hearts of our students whom he loved dearly.
What is Blackboard?

Blackboard is a learning management system which enables instructors to create and implement numerous activities that support their courses. Through this system, faculty members can easily communicate with their students, share course materials, give assignments and exams, and engage students in discussions outside class hours, as well as track student performance. The system can support distance learning and also facilitates enrichment of traditional campus based in-classroom courses with electronic content and activities.

Blackboard enables users to access course materials and participate online in course activities from any computer, tablet or smartphone with an internet connection and a web browser from anywhere in the world using their personal user name and password. As it is a system requiring a password for access, students can only see the content of the courses they are enrolled on.

https://khas.blackboard.com

Blackboard for Students

Via Blackboard, students can access all course materials prepared by the instructor and receive announcements about the course. The system also has the functionality of sending announcements as e-mails. As students can send their assignments using the Blackboard system they no longer need to worry about their homework getting lost or whether or not the instructor has received it. The use of Blackboard in face-to-face courses enables these courses to become more interactive.

http://khas.blackboard.com

Knowledge Management System

The Knowledge Management System (BYS) is a student information management system which facilitates the coordination of student registration and the archiving of student data. All our students must attend the presentation about BYS during the orientation days in order to fully learn the way this system works.

All announcements made on BYS and all e-mails sent to the e-mail address given to students by the university are considered to be notices made to the official addresses of the students.

All students are expected to check BYS announcements; Kadir Has University does not accept any responsibility for complications arising from the failure to fulfill this obligation.

https://bys.khas.edu.tr

Students can access the Knowledge Management System using their personal passwords given to them by the Student Affairs Office.

Students can carry out the following operations on BYS:

1) Choose their courses, make their course registrations and send them to their advisors.
2) Check the advisors’ approval of course registration.
3) See weekly course schedules.
4) Check their exam scores.
5) Follow the announcements made by the university for the students.

It is important for students to keep active the khas.edu.tr email addresses given to them during registration in order to use the BYS and Blackboard systems efficiently.
Information Center

The KHAS Information Center is dedicated to providing the most up-to-date information services through the latest communication technologies. The Center aims to meet the needs of users in the most efficient manner possible in their scholarly research and intellectual development. The KHAS Information Center aims to build the basis for education and academic research supporting the scholarly and intellectual activities of its users. The Information Centers at the Cibali Central and Selimpaşa campuses can simultaneously serve 260 people at any given time.

Our Information Centers have a shelf capacity of 70,000 volumes and provide wireless internet access.

Kadir Has University Information Center in Numbers:

- 65,000 print volumes
- More than 5000 DVDs, CDs and videos
- 100,000 electronic books
- More than 30,000 electronic journals on 34 online databases
- All online materials can be accessed 24 hour, 365 days a year.

Opening Hours:

During the Academic Year:
Monday - Friday: 08.30 - 22.00
Saturday - Sunday: 10.00 - 18.00

Other Times:
Weekdays: 09.00 - 18.00
It is very important for students to attend the Orientation Days program to get more fully acquainted with and informed about the university and the academic, social, cultural and sporting opportunities it provides. Being better informed students can make better choices and give direction to their interests and preferences from the start.

2013-2014 Academic Year Orientation Days

Kadir Has Campus Freshmen Orientation Days

12, September 2013 Monday
(Orientation Day for First year students who have passed the English Language Proficiency Exam)

10.00 – 11.00 Students gather for Welcome Address - D Block Grand Hall Welcome Address
11.00 – 12.00 Briefing on the Knowledge Management System - BYS - D Block Grand Hall
Assistant Prof. Dr. Selçuk ÖĞRENCİ
12.00 – 13.00 Briefing by the Health, Culture and Sports Office - D Block Grand Hall
Aslı KOCABIYIK - Office Director
Student Clubs
Sports Teams, Sports Scholarships
Health Services
Nazlı ÖZTOKSOY - Events Coordinator

Prep School Orientation Days - Bahçelievler Campus

4 sessions:
09.30 – 11.00
11.00 – 12.30
13.00 – 15.00
15.30 – 17.00

Program
Welcome Address
Prep School Director

Briefing on the Prep School
Vice Director Esra KURTULOĞU

Briefing on the Prep School Education / Curriculum
Vice Director Aylin KAYAPALI

Lunch Break
Presentation about Student Affairs
Student Affairs Coordinator

Briefing on the Psychological Counseling Center (Psychologist Gizem HANCI)
Q&A Session
What is credit? Why course selection is important?

Education at Faculties, Applied Sciences School and Vocational Schools are carried out in accordance with the curriculum determined by the relevant committees and approved by the Senate taking into account the common courses specified by the Higher Education Council and accepted by the Senate.

The necessary amount of credit-hours in order to graduate from the Faculties, Applied Sciences School and Vocational Schools are specified in the education plans of these units.

The courses in the education plan are comprised of compulsory and elective courses. Students must take the compulsory courses, whereas they can choose the elective courses they would like to take.

Students must attend 70% of classes and 80% of independent applied studies, such as labs and workshops.

Students who do not attend the required minimum number of classes are not permitted to take final exams or re-take exams.

An undergraduate diploma is granted to students who successfully complete all of the required courses and credit hours in their program of study, maintain a minimum of a 2.00 cumulative GPA, and complete any required internships and other projects specified by the faculty or unit.

Student Advisors

For each student a faculty member is appointed as an advisor by the related department.

Your advisor monitors your studies and makes recommendations about the compulsory and elective courses you need to take within the degree, double major and minor programs you are enrolled on.

During the registration renewal at the beginning of each semester you have to choose your courses with your advisor and get his/her official approval.

You may seek help and support from all faculty members on issues regarding your education; however, your advisor is the first person to contact for initial support and appraisal of issues.
Academic Ethics
In their academic work, all students and faculty should strive to abide by the research, publication and academic ethics principles outlined in the Kadir Has University Scientific Research and Publications Ethics Guide. Students found to contravene the ethics rules with unethical behavior such as cheating or plagiarism will face disciplinary hearings and if found guilty by the Disciplinary Committee disciplinary punishment will be given based on the Discipline Regulations up to and including suspension from school.

Double Major Program
The purpose of our double major program is to provide undergraduate students successfully pursuing a major with the opportunity to simultaneously attain a second bachelor’s degree in another field of study. Students may apply to do a double major at the earliest in their third semester and at the latest in their fifth semester.

Minor Degree Program
The Minor Degree is a track which allows a student successfully studying a Bachelor’s program to take some courses of another program of his/her interest. A student who completes the minor degree track with a minimum GPA of 2.00 receives a certificate.

Transfer (Between Departments and Programs)
For students who would like to change their area of study, we have taken steps to ensure that they are able to transfer into a different program. Students may transfer to another program of study within the university or transfer to Kadir Has University from another institution of higher education. In addition transfers from associate to undergraduate degrees is possible, the details of which are declared in the related Regulations document.
Khas Honorary Scholarship

Khas Scholarship 2011

T.C
KADIR HAS UNIVERSITY
SCHOLARSHIP REGULATION

Khas Honorary Scholarship

Article 6 - At the end of each academic year, students who have completed their compulsory and elective courses with a GPA of 3.00 or higher and are in the top five percentile of class ranking for their faculty as specified by the appended criteria are eligible for the Khas Honorary Scholarship for the following school year.

Khas Honorary Scholarships, depending on the ranking of a student in her or his faculty, cover all or part of the tuition as indicated in the table below; the scholarship shall be treated as a discount from the standard tuition rate. Students receiving this scholarship shall not receive any additional payment from the university.
What do I need to do in order to make university life easier, which units do I need to become familiar with?

Student Affairs Office
This office carries out all the clerical procedures regarding: student registrations, student ID cards, scholarships and similar tasks; all the clerical procedures originating from departments and programs of Faculties, Applied Sciences School and Vocational Schools; the monitoring of registration and the adding and dropping of courses within the deadlines set out in the academic calendar; the provision of transcripts and diplomas and conducting post-graduation paperwork.

This office works for all the departments and programs of all the faculties and schools of the university and functions as a bridge between the students, students’ families and other units of the university.

Faculty Secretariats
Faculty secretariats carry out the administrative work of faculties; these are the primary units where students submit official documents such as medical reports. Faculty secretariats also help students contact faculty members.

Corporate Social Responsibility Office

“Charity that seeks no returns accrues the greatest benefits...”

At Kadir Has University, our strategies for development are based on social, environmental and ethical values to ensure that all stakeholders as well as students, faculty members and administrative staff share a common sense of responsibility that is channeled through volunteer activities.

One such endeavor is the Rights of Neighbors Project. A stakeholder committee, the members of which are residents of Cibali and representatives of the university, was established by the CSR Academy with the aim of finding creative and innovative solutions to local problems. In this project, stakeholders’ participation is a primary concern, and our goal is to implement work together with local residents that is socially, economically and environmentally sustainable. We have launched health check-up programs and projects to develop the local area, as well as cinema screenings, theater performances, sporting events and collaborations with local schools.

Corporate Social Responsibility (CSR) courses are included in our curriculum, in addition to applied projects aiming at social participation and environmental work.

All the students in our faculties and schools where education is four years long enroll in CSR courses, which take place in the second year of their education and continue for two semesters as non-credit compulsory courses. As part of their CSR coursework, students attend seminars given by specialists on a variety of issues pertaining to social responsibility, and also implement their own social responsibility projects.

After receiving foundational training in social responsibility, students meet up with representatives of leading NGOs during our Civil Society Days event which is held every year. Within the scope of this event, the university helps students find opportunities to work at an NGO of their choice. In this respect, every student at Kadir Has University has the option to actively work at an NGO; thus, our students learn more about the world of NGOs and how they can contribute to the work that NGOs carry out. As the university gives great importance to inter-active communication it encourages students to participate in cultural and social CSR activities and organizes the annual Charity Marathon for the Cibali area and hosts the Turkey Corporate Social Responsibility Marketplace event. The next Marketplace is going to be organized on 6th of December 2013.
Health Services

All three of our campuses (Cibali, Selimpaşa and Bahçelevler) have on-site medical centers and offer psychological counseling services.

Students and personnel have free access to these facilities, and can get check-ups and have prescriptions filled. All campuses of our university also collaborate with general hospitals nearby.

Phone numbers of the health units:
Cibali Campus  0212 533 65 32 / 1178
Bahçelevler Campus  0212 441 47 24 / 2126
Selimpaşa Campus  0212 731 90 08 / 3145

Our psychiatrists and psychologists work based on an appointment scheduling system.

Sports Facilities

We offer a variety of sports programs to ensure that our students have the opportunity to develop their physical as well as intellectual abilities.

The Kadir Has Campus in Cibali has a basketball court, mini football field, climbing wall, fitness center and indoor sports center.

At the Selimpaşa campus there are multi-purpose sports areas for basketball, volleyball, and tennis, as well as a mini football field, climbing wall and fitness center.

We offer three separate areas of focus for sports activities, with specialized trainers for each:

• University sports teams  • Independent sports/exercise  • Inter-university programs

In memory of our founder Kadir Has, the university has held the annual Erciyes Mountain Climb for the last six years, in addition to intercampus sports events.

The university also hosts national events such as inter-campus competitions, Inter-University and Inter-Club Rowing Competitions, Kadir Has-Koç University Rowing competitions and the Golden Horn race.

We consider it of the greatest importance that our students improve their sporting abilities in addition to their studies in the fourteen sports branches which are included in the University Sports Federation.

SPORTS TEAMS

• Athleticism  • Handball (male)  • Rowing (female-male)
• Badminton (female-male)  • Karate (male)  • Chess (female-male)
• Basketball (male)  • Skiing and snowboarding (female-male)  • Tennis (female-male)
• Football (male)  • Table tennis (female-male)  • Volleyball (female-male)

Our psychiatrists and psychologists work based on an appointment scheduling system.
English Language Preparatory School and English Language Unit

Importance of English Language Preparatory School

As declared in the Student Selection and Placement Center (ÖSYM) handbook, the language of instruction at Kadir Has University faculties is predominantly English. The English Language Preparatory School and the English Language Unit work under the Foreign Languages Coordinatorship.

All students who register at Kadir Has University, unless exempted according to university regulations, are required to take the English Preparatory School’s proficiency exam. Students who score higher than 60 are exempt from the year of English courses at the Preparatory School, and can directly register for their coursework as first-year students.

Students of the School of Applied Sciences and Vocational School who plan to improve their English language skills at this stage can enroll on the English preparatory year classes. Students are exempted from the proficiency exam if they document that they have obtained a minimum score of 5.5 from the IELTS or 79 from the TOEFL IBT.

In the Preparatory School students must attend a minimum 80% of classes.

The Preparatory School is located in the Bahçelievler Campus.

Please visit our website www.khas.edu.tr for detailed information on the Preparatory School’s Proficiency Exam.

Writing Center

The Writing Center provides support for our undergraduate and graduate students as well as academic and administrative personnel in the development of their academic writing skills. In addition to one-on-one writing tutorials, the center offers an English Conversation Group and TOEFL-IELTS preparation support. The center also supports our university’s faculty members in the academic publication process. Our main goal at the Writing Center is to guide and motivate students in their quest to broaden their intellectual horizons by improving their English-language writing skills.

English Language Unit

The primary objective of the English Language Unit is to help our undergraduate students acquire the language skills they will need to succeed in their fields of study as well as in professional life after graduation. In the first and second years of their studies, students in all faculties are required to take four semesters of English courses which focus on building skills in academic writing, critical thinking, and effective communication.
Join Erasmus and remove the borders

Erasmus and EU Programs Unit

Kadir Has University gives great importance to international academic and cultural collaboration to support research and exchanges with European universities within the scope of EU programs and projects. Our university has Erasmus student exchange agreements with nineteen European countries and almost eighty European Universities. In 2009 our University acceded to the broadened Erasmus University Charter and added the internship exchange program to its collaboration with European Universities. Consequently our students have had the opportunity of getting short-term work experience in their academic fields in businesses in various countries in Europe.

Erasmus is a matchless opportunity for a student to become a world citizen. Coming together with students from different cultures and countries broadens the students’ horizons in every way. Our students benefit greatly from this program both academically and culturally. The Erasmus and EU Programs Unit can provide further information about the details of the program, deadlines and eligibility criteria for applications. Student exchanges are carried out in the Spring and Fall semesters every year.

Why should we attend the seminars and conferences at the university?

University is a great opportunity for you to develop and equip yourself for the future. In addition to your academic achievements you have to pay attention to your self-development. You can improve yourself in different subjects and in different ways by attending seminars and conferences. You can also organize seminars and conferences yourself through student clubs. Organizing and taking part in such events will help to prepare you for your future life.

With its modern and fully-equipped conference and seminar halls, available 24 hours and 7 days, our university offers wonderful opportunities for such activities.
Campus life is different with student clubs

Holding to the belief that intellectual development should be well-rounded, our university offers social, cultural, sports and artistic activities so that students can develop their knowledge, skills and creativity. Among these activities are panels, conferences and forums with eminent scientists, politicians, executives, businessmen and experts; the publishing of magazines, journals and bulletins; holding interesting talks with popular figures from the arts; organizing concerts, theater plays, signature days, sports events, festivals, trips, exhibitions and competitions.

The student clubs have been organizing an ever increasing number of very successful quality events and activities every year.

These clubs allow students to take responsibility, deepen their interests and develop themselves and thus find the opportunity to differentiate themselves in their post-university life.

The list of student clubs - which are continually developing and expanding every year at the request of our students:
- Advertising Club
- Career Club
- Chess Club
- Cinema Club
- Culture and Arts Club
- Dance Club
- Debate Club
- Economics Club
- Energy and Climate Change Club
- Engineering Club
- Entrepreneur Innovative Leaders Club
- Erasmus Club
- European Union Club
- Faculty Design Club
- Finance and Banking Club
- Folk Dance and Folk Music Club
- Futurists Club
- Graphic Design Club
- IEEE (Institute of Electrical and Electronics Engineers) Club
- International (Foreign) Trade Club
- IT Security Club
- Law Club
- Literature Club
- Logistics Club
- Management Club
- Marketing Club
- Model United Nations Club
- Natural Engineering and Nature Sports Club
- Music Club
- Nature and Ecology Club
- New Media Club
- Operational Research Club
- Photography Club
- Poetry Club
- Political Science and International Relations Club
- PR and Advertising Club
- Radio Club
- Real Estate and Asset Evaluation Club
- Short Film Club
- The Atatürk Society Club
- Theater Club
- UVH Social Club
- Univent Club
Career Days

Career Days is a three-day event organized annually in March. The aim of this event is to help our students gain information and understanding regarding the best sector, position, and career direction to take by presenting seminars given by professionals from different sectors. Alumni who have begun their professional lives and more than thirty companies participate in the Career Days every year. During Career Days our students can find answers to their questions and the opportunity to find internships and jobs in their chosen profession.

NGO Days

Non-Governmental Organizations Days are an event organized every year between March and April. NGOs participate in this event to explain and promote their work, and to discuss and find possible solutions to problems faced by NGOs. The aim is to create a platform that brings together NGO circles at least once a year and help our students get better informed about NGOs and their work.

Enterprise 2023, Corporate Social Responsibility in the 100th Year of the Turkish Republic Corporate Social Responsibility Marketplace

The fifth Turkish Corporate Social Responsibility Marketplace will take place on 06 December 2013 at Kadir Has University. The event is the fourth organized by the Turkish Corporate Social Responsibility Association and Kadir Has University and will take place on the 6th of December in our Cibali Campus. Companies will present their CSR Solutions to all related stakeholders including experts from other companies, the public sector, and from European CSR organizations in a big ‘CSR Market Place’, an activity held in many European countries since being initiated by CSR Europe in 2005.

The theme of this year’s Marketplace event will be “Enterprise 2023 - Corporate Social Responsibility in the 100th Year of the Turkish Republic”. The aim of this event will be to promote social awareness, and for companies from various sectors to share their experiences and to introduce students to companies with good CSR practices.

Introduction to Working Life Seminars

These series of seminars are organized to enable our students to benefit from the sector and professional knowledge of experienced executives, get acquainted with them and better understand their corporate cultures, and to find the opportunity to network. These seminars are organized during the academic year by the Career Center with the participation of executives from many professions such as Law, Marketing, Finance, and the Media. Students who attend all the seminars receive a certificate.

KhasFest

The Kadir Has University Spring Festival (Khasfest), which is one of the most colorful university festivals in Turkey, is organized by our students and held every May. The important feature of this festival is that it is organized with an amateur spirit in a professional manner. The festival aims to help students recharge after the academic year with dance, music, and concerts. The festival has hosted many popular national and international artists, and is an extensive annual student organized event covering vast entertainment areas.
One of the best things about being a Kadir Has University student is being in the center of the city. This location offers many advantages for Kadir Has University students. You are always very close to the culture and arts centers of the city and you are surrounded by thousands of years of culture as you study. Kadir Has University is a university which contains a museum within its premises. At our university, which includes four separate exhibition halls, there is always an exhibition or a cultural activity at any given moment. In addition to that, in terms of its location, Kadir Has University is very close to areas such as Taksim, Beşiktaş, Nişantaşı, Eminönü, Mecidiyeköy and Etiler where there are numerous cinemas, theaters and concert halls which makes your social life easier and helps you to save time. You can meet your friends in Taksim after school and then get back home easily using public transport.

Kadir Has University offers a variety of social facilities for your free time. As it is in the center of the city, the time you spend in traffic is minimal which leaves you plenty of time to spend on campus. The university cafeterias and canteens are monitored for quality and price. In addition, the university has a museum, research labs, a rich library, sports facilities, tennis court, cinema halls and theaters. Together with extensive student club activities every opportunity is presented for you to make the best use of every minute of your time.

Rezan Has Museum

The Rezan Has Museum which hosts thematic exhibitions as well as exhibitions of private collections has been active since 2007 with a variety of exhibitions and activities aiming to share with art lovers the previously unseen collections of significant Turkish art collectors. The museum expanded its collection in 2009 through the acquisition of materials related to the Cibali Tobacco and Cigarette Factory. These items offer a rare insight into the industrial, economic, political and socio-cultural history of the Turkish Republic.
Student Activity Calendar*

- Orientation Days: 12 - 17 September 2013
- Student Clubs Introduction Days: 07 - 08 October 2013

About Our Campuses

Kadir Has Campus - Cibali
The Tekel Cibali Factory began operations in 1884 as the state tobacco depot and cigarette factory and continued to operate until the 1990s. In 2002, the building was faithfully renovated and transformed into the Cibali campus of the university. Located in an area of İstanbul steeped in history, the impressive main campus is rich with traces of the past, and the renovation work of the campus' main building was granted the Europa Nostra Award. This campus houses the university’s Rectorate, faculties, institutes and research centers. The enclosed space of the campus covers 40,000 square meters and includes classrooms, laboratories, the information center, theatre, and conference and cinema halls, as well as sports facilities, restaurants, cafeterias and a dance studio.
