

KADIR HAS UNIVERSITY SUSTAINABILITY ACTION REPORT 2023-2024

As the challenges that societies experience globally in fundamental areas reached undeniable dimensions and complexity, the sustainability vision has become prominent as an approach that will provide finding solutions on a wide range from local to the global scale. The UN Global Compact, which was shaped based on this vision, is a precious initiative in terms of embodying organizations' duties on subjects such as human rights, labour standards, environment, and anti-corruption; highlighting global collaboration and rendering any efforts towards sustainability traceable. Given the conditions of the global pandemic, the significance of the UN Global Compact has been revealed once again. There is no doubt that universities, which come to the forefront with their responsibilities in the fields of education, research, service to society and their distinctive academic, corporate structure, have numerous contributions to make to this global initiative.

Educating individuals who will overcome the difficulties that the world will face, creating resources that will allow finding innovative solutions, and putting these solutions at the disposal of humanity are among the university's fundamental responsibilities. From this perspective, it is easy to see that the sustainability vision is in natural harmony with universities' responsibilities. Acting with the vision of becoming a world-class research university, Kadir Has University possesses a new education model focusing on fundamental humanistic and global values and learning by practicing, a research strategy based on developing innovative solutions and university-industry collaboration, a public service approach based on putting the knowledge produced in the university at the disposal of humanity and a corporate structure which applies the academic world's participatory structure and constant improvement approach to all university processes.

Having signed the United Nations Global Compact in 2009, Kadir Has University declares its loyalty to the UN Global Compact and its sustainability vision with the 2023 and 2024 Progress Report, which summarizes our university's recent developments and works within the framework of the United Nations' Sustainable Development Goals (SDGs).

ABOUT KADİR HAS UNIVERSITY

Kadir Has University (KHAS) is a foundation university located on the shores of the Golden Horn in Istanbul's Fatih district. It was founded in 1997 by philanthropist Kadir Has. Known for its historic campus and innovative approaches to education and research, the university aims to meet global standards.

KHAS consists of five faculties: Law, Economics, Administrative and Social Sciences, Communication, Engineering and Natural Sciences, and Art and Design, along with a School of Foreign Languages. It hosts international students from 39 countries.

Results of Related International Rankings

o THE World University Rankings 2025

Kadir Has University is among the 12 Turkish universities ranked within the top 1000 in THE 2025 World University Rankings. Out of 93 Turkish universities included in the rankings, we secured a position in the 801-1000 (834th) band, ranking 8th in Türkiye. In our strongest indicator, "Research", we ranked 5th in Türkiye and 440th globally. Additionally, in the "International Outlook" indicator, we ranked 13th in Türkiye and 780th globally.

o THE Impact Rankings 2025

Kadir Has University ranked among the 301-400 universities worldwide out of 1,963 institutions in the Times Higher Education University Impact Rankings 2024, which evaluate global universities based on the United Nations' 17 Sustainable Development Goals. In specific categories, our university achieved remarkable results: 42nd worldwide and 2nd among foundation universities in Türkiye in Gender Equality (SDG 5); 77th worldwide and 3rd among foundation universities in Türkiye in Peace, Justice, and Strong Institutions (SDG 16); 1st among foundation universities in Türkiye and 201-300 worldwide in Decent Work and Economic Growth (SDG 8); 2nd among foundation universities in Türkiye and 201-300 worldwide in Sustainable Cities and Communities (SDG 11); 3rd among foundation universities in Türkiye and 201-300 worldwide in Reduced Inequalities (SDG 10); 3rd among foundation universities in Türkiye and 401-600 worldwide in Industry, Innovation and Infrastructure (SDG 9); 201-300 worldwide in Quality Education (SDG 4); and 301-400 worldwide in Partnerships for the Goals (SDG 17). These achievements highlight Kadir Has University's strong commitment to sustainability, inclusivity, and institutional excellence, positioning it as a leading foundation university in Türkiye across multiple SDG categories.

KHAS Education Model

The university has developed its own unique education model, centered on students and guided by leading academics and R&D professionals. It combines:

- o Core Program: Courses in universal human values, ethics, and history, designed to broaden perspectives beyond traditional disciplines. Assessment emphasizes participation and mentorship rather than standard exams.

- o Project-Based Education: Curricula are co-designed with industry experts. Students learn through real-world projects, evaluated via reports and presentations instead of rote exams. Undergraduate students also join research groups through the LISAR program.

This approach is intended to produce intellectually engaged graduates who are both specialists and global citizens.

Research, Innovation, and Infrastructure

KHAS operates Silivri Technopark (founded in 2023 with Silivri Municipality and Kadir Has Foundation) and FabrikHAS, a major screen industry center launched in 2024 with EU funding. These initiatives support commercialization of student projects and industry collaboration.

The university also hosts multiple research centers in areas such as energy and sustainability, gender studies, sports, cybersecurity, and urban studies.

International Partnerships

KHAS participates in Erasmus and global exchange programs, with agreements across Europe, North America, Asia, and beyond. Partner institutions include Humboldt University (Germany), University of Kent (UK), University of Michigan (USA), Hanyang University (Korea), and many others.

Campus and Cultural Heritage

The sole campus, Cibali Campus, covers 45,000 m² and houses classrooms, labs, a library, faculties, and the Rezan Has Museum. The campus was originally a 19th-century Ottoman tobacco factory, restored and reopened as a university in 2002. The restoration earned the Europa Nostra Award for cultural heritage preservation.

Faculty, Alumni, and Community

KHAS has over 20,000 alumni and a distinguished faculty that includes internationally recognized scholars. Notable alumni include actress Begüm Birgören and chess master Emre Can. The university supports a vibrant student life with dozens of clubs in areas ranging from arts and culture to entrepreneurship, sports, and activism.

KHAS Global Compact Progress Report

1. NO POVERTY

Kadir Has University actively contributes to eradicating poverty through both social engagement and academic research. Student teams collaborated with the Basic Needs Association (TİDER) to support municipal food banks in Şişli and Beyoğlu, receiving training on urban poverty and food waste before volunteering in daily operations. Faculty-led TÜBİTAK 3501 research explored cooperation under resource scarcity, and publications addressed sustainable income support policies in Türkiye. In addition, initiatives like the Zorlu PSM Theatre Workshop provided free professional training to aspiring artists from disadvantaged backgrounds, promoting cultural participation and social inclusion.

1.1. Events

The Psychological Origins of Cooperation¹ was supported by a training activity conducted within the Faculty of Art and Design, Theatre Department through the Zorlu PSM Workshop, held between 10 January and 31 May 2023. The program featured expert instructors Serdar Biliş, Özlem Hemiş, and Özlem Özhabes, and targeted writers, directors, and producers who applied as scholarship recipients. Offered free of charge, the PSM Workshop aims to introduce new talents to the theatre and enrich original content.²

1.4. Courses

- KHAS110 – Social Responsibility Project was carried out in cooperation with TİDER, where student teams volunteered at food banks operated by the Şişli and Beyoğlu Municipalities' Social Services Directorates. Prior to their assignments, students received training on food waste and urban poverty, after which they engaged in hands-on volunteer work, including shelf-stacking, assisting visitors, and storehouse duties.
- KH542 – Current Issues in International Tax Law was offered under two schedules:
 - o Friday, 19:00 – 21:50, D-113
 - o Monday, 18:30 – 21:20, D-103The course was instructed by Alara Efsun Yazıcıoğlu and focused on contemporary challenges and practices in international tax law.

efforts to attain the
goal of the UN for
“No Poverty”.**

2. ZERO HUNGER

Our university implements initiatives to combat hunger and reduce food waste. Through the TİDER collaboration, students actively worked in food banks to assist urban communities. Catering operations on campus are optimized to avoid overproduction and food waste, and unused edible food supports stray animals. Financially disadvantaged students receive daily meal grants, ensuring that no one on campus faces food insecurity. Additionally, faculty projects such as “Food Security in the Western Anatolian Countryside” analyze patterns and policy recommendations for sustainable food systems.

2.5. Related Interventions

- **Enterprises:** At Kadir Has University, the food service providers are inspected on a monthly basis. During these inspections, it is ensured that only the quantity of products required for daily needs is used to prevent waste. Additionally, for periods such as holidays and exam weeks, the food service providers operating within the university are informed a few days in advance so that their production processes are adjusted accordingly to avoid any food waste.
- **Meal Grant:** Kadir Has University provides meal scholarships each year to students identified as in need. Eligible students are determined by the Financial Affairs Directorate, and throughout the semester, they are granted the right to receive one lunch meal per day in the university cafeteria.
- **Waste Management:** At Kadir Has University, waste management is carried out in accordance with the Waste Management Regulation, with waste being segregated to ensure proper recovery and disposal processes. A significant portion of food waste is provided to a partner organization of the university to feed stray animals. Waste is categorized into paper, plastic, glass, metal, domestic, battery, and medical waste, with dedicated collection equipment available for each category. Packaging waste is recycled through licensed recycling companies approved by the Ministry of Environment, Urbanization, and Climate Change.

3. GOOD HEALTH AND WELL-BEING

The on-campus health unit, staffed by a physician and nurse, provides preventive and primary care services to students, staff, and visitors. Social responsibility projects, such as KHAS110 modules in local schools, promote peer bullying awareness, emotional intelligence, and healthy habits. Faculty research addresses healthcare innovation, including AI-based digital services for MS patients and studies on optimizing hospital emergency infrastructure. Academic output includes publications on COVID-19 communication, medical supply chains, and patient safety, contributing to healthcare resilience and policy development.

3.1. Events

- Conference on Disability Rights III: Rights of the Disabled Consumer (organized in collaboration with Kadir Has University Faculty of Law and the Istanbul Bar Association Disability Rights Center) (02–03.12.2024)

- Project Title: “Examining the Interaction of Perceived Characteristics of AI-Based (Digital) Services, Co-Creation of Value, and Continued Usage Intention: A Study on MS Patients” (Supported in the 1st term of 2023)
- Faculty: Faculty of Art and Design | Publication / Project Type: TÜBİTAK 1001 | Publication / Project Title: Determining Visual Comfort Variables in Workspaces Based on Human-Centered Lighting and Energy Performance Requirements | Project Coordinator: Prof. Dr. Banu Manav (Kadir Has University)
- Research Asst. Dr. Egemen Kaymaz (Uludağ University) | Project Date: 10/12/2023 – 10/08/2026 | Short Summary: The proposed research focuses on the structure of lighting systems used in contemporary work environments. The project will investigate visual comfort variables in today's working conditions in conjunction with the significance of the human-centered lighting design concept, using a 1:1 scale controlled experimental environment. Additionally, one of the project's objectives is to determine the energy performance level that results in optimal cost over the economic lifecycle for the proposed lighting scenarios. Within the human-centered lighting approach, the study will also assess the improvement rate of lighting energy performance achieved through the combined use of dynamic LED luminaires and lighting control strategies.

3.4. Courses

- In KHAS105, the Bioethics module discusses the impact of advances in gene and “human enhancement” technologies on individual and public health, together with the associated ethical issues.
- KHAS1810 Social Justice and Policy Change: students analyze three case studies on how political and social systems shape economic and social life. One case examines the 1980s food-pyramid debate in the USA—via a role-play of political actors, farm lobbies, and health institutions—to explore how health policies evolve under political-economic pressure.
- Faculty: Faculty of Art and Design | Program: Interior Architecture and Environmental Design (Undergraduate) | Course: IAR306 Interior Architecture Design Systems IV: Installation | Term: 2022–2023 / 2023–2024 Spring Semester | This course aims to provide fundamental knowledge and awareness of environmentally sensitive and sustainable building approaches, including environmental design, passive and active design strategies, mechanical and plumbing systems, technical infrastructure, and fire safety. It is designed to equip students with a professional vision that integrates environmental, economic, and social sustainability principles into practice.
- Faculty: Graduate School | Program: Design | Course: Design, Art and Urban Space – Instructor: Ayşe Erek | Term: 2023–2024 Spring Semester | Focuses on art, design, and spatial policies in urban public spaces.
- Faculty: Faculty of Art and Design | Program: Industrial Design (Undergraduate) | Course: History of Industrial Design – Instructor: Ayşe Erek | Term: 2023–2024 Spring Semester | Covers the history of industrial design from the 19th century to the present.

3.5. Related Interventions

- Health Service: Kadir Has University has a health unit that serves administrative staff, academic staff, and students. The health unit is staffed by one doctor and one full-time nurse and is also accessible to contractors and external visitors when needed. The unit provides preliminary diagnosis and initial treatment and ensures follow-up in subsequent stages of care.

4. QUALITY EDUCATION

Kadir Has University fosters lifelong learning and quality education through extensive academic programming, research, and community engagement. In 2023–2024, the Library expanded its acquisitions and remote-access services, processed interlibrary loans, and digitized course materials to ensure broad accessibility. Students participated in social responsibility projects with local schools, museums, and NGOs, linking theoretical learning with community impact. Graduate and undergraduate courses addressed sustainability, energy transition, and gender equality, while international collaborations such as “Boundary Crossing” and “ACT” projects enriched interdisciplinary learning and artistic research.

The background of the page features a photograph of a cityscape and a body of water, viewed through a window with a dark grid pattern. The cityscape includes a prominent tower with a conical roof, surrounded by dense urban buildings. The water is a deep blue, and a small boat is visible in the lower left corner. A light green circular graphic is overlaid on the left side of the image, containing text.

**Various measures were
taken to reduce
the water consumption

5. GENDER EQUALITY

The University champions gender equality across academic, operational, and community spheres. The Gender and Women's Studies programs, along with the KHAS Equality, Diversity & Inclusion (EDI) Office, led seminars, feminist workshops, and Erasmus+ projects promoting gender-sensitive education. Research initiatives examined non-violent masculinities, women's urban experiences, and gender in climate change. Students engaged in Wikipedia gender-gap projects and courses like "Gender & Diversity," while faculty publications contributed to global discussions on feminist historiography, expat hierarchies, and the social impacts of disasters on women and children.

Prof. Dr. Ezgi Tuncer | Scholarship Holders: Ela Gök, Liana Kuyumcuyan, Sare Nur Avcı – MA in Architecture and Urban Studies | Project Period: 01.04.2022 – 01.11.2023 | Summary: This project investigates the socio-spatial dynamics shaping the migration, settlement, daily life practices, and urban experiences of highly educated (skilled) migrants living and working in Istanbul. It examines the migration reasons and processes of middle-class, transnational communities from the Global North and Global South, exploring their urban life experiences (home, work, social life) through the intersection of gender, nation, and ethnicity (identity and origin). It argues that these migrants, often perceived as “expats,” are in fact university-educated transnational middle classes who may also face precarity, economic crises, conflicts, and repressive regimes. The project aims to reveal discriminatory practices encountered in Istanbul and to contribute to new urban and legal policies that improve the living conditions of migrants in the city.

Prof. Dr. Zeynep Günsür Yüceil, Asst. Prof. Dr. Özlem Hemiş | Project Period: 01.06.2022 – 31.05.2024 | Funded by the Swedish government and initiated by the KHAS Theatre Department, this two-year research and education project focuses on children’s and youth theatre. Conducted in collaboration with Unga Klara – Sweden’s National Children and Youth Theatre, Mordem Art in Diyarbakır, and K2 Contemporary Art Association in İzmir, it aims to train future arts practitioners and support innovative practices in the field.¹⁶
- Artistic Education Research Project | Boundary Crossing – Artistic Research in Context | 20 March 2023 – 12 May 2023 | Partners: HKU (University of the Arts Utrecht) – Glej (Theatre/Production, Ljubljana) – Kadir Has University Theatre Department (Istanbul) | This pilot project focuses on interdisciplinary artistic production and encourages young artists to diversify their creative practices and production tools. It aims to foster research through cross-disciplinary collaboration, opening new areas of critical and creative thinking. Emphasis is placed on collective working methods and exploratory practices.
- Artistic Education Research Project | Boundary Crossing – Artistic Research in Context | 23 September 2024 – 18 October 2024 | Glej Theatre (Ljubljana, Slovenia), HKU University of the Arts Utrecht, and Kadir Has University (Istanbul) collaborated on the conceptualization and implementation of the Boundary Crossing project. Initially launched as a pilot in 2021, the project continues into 2025 as an experimental educational program connecting young theatre makers from participating countries. “Boundary crossing” refers to reaching across borders—between countries, theatre practices, thought processes, and individual working methods. The underlying methodology aims to help participants develop their theatre-making practices by negotiating multiple contexts. They learn to create and evaluate work from diverse perspectives, relationships, cultures, and roles.

5.4. Courses

- KHAS110 with Digital Knowledge Association: students created or improved women’s biographies on Wikipedia to close the online gender gap.
- KHAS110 with Digital Knowledge Association: students created or improved women’s biographies on Wikipedia to help close the online gender gap.
- In the elective KHAS1454 Istanbul on Foot: Discovering the City through Art & Design, the “Archiving” week included a visit to the Women’s Library & Information Centre Foundation and a forum on the importance and sustainability of women’s archives.
- KHAS105 Universal Values & Ethics: included a three-week block on Gender Equality and the “Gender and Diversity” module.
- KHAS1226 Ecological Feminisms course.
- KHAS105 Gender & Diversity (Autumn).
- KHAS1302 Gender and the Life Course.
- LAW346 – Gender and Law (Elective)
- Course Description: The course begins with a brief introduction to gender and sexuality studies (feminist theory, LGBTQ+ studies, queer theory), opening discussions on core critical conceptual tools such as gender, patriarchy, and heteronormativity. It then applies these theories to key topics like the relationship between gender and law, the public-private divide, and body politics. Themes such as violence and discrimination are examined to show the role of law in reproducing gender roles. Finally, the course explores the discourse and methods used in the rights struggles of feminist and LGBTQ+ movements, assessing achievements and limitations, and discusses the possibilities law provides for social transformation.¹⁷

¹⁷<https://bologna.khas.edu.tr/ders/30003150/program/50000736>

- LAW374 – Politics of Human Rights (Elective) Course Description: Rather than a purely philosophical or legalistic approach, this course frames human rights as politics, situating them at the intersection of law and politics as outcomes of social movements and power relations. It introduces and critically discusses the main premises of contemporary human rights discourse, explores the historical processes of identity-based rights movements, and examines the potentials and limits of human rights in struggles against discrimination and inequality, with a focus on political identities based on gender, sexual orientation, and gender identity.¹⁸
- LAW570 – Gender and Human Rights Course Description: The course starts with the historical, conceptual, and theoretical framework of international human rights law, including the core premises of liberal rights theory. It provides an introduction to feminist and queer theory, and concepts such as gender, patriarchy, and heteronormativity. It then explores the relationship between these theories and human rights law, discussing the strategies and discourses of feminist and LGBTQ+ movements, their achievements, and the limits of human rights law. Using key human rights instruments and case law, the course examines the standards developed regarding gender, sexual orientation, and gender identity, and analyzes Turkish law and practice within this framework.¹⁹
- KHAS536 – Contemporary Theories of Rights Course Description: This course first emphasizes the opportunities and achievements of liberal rights theory as the foundation of today's human rights discourse, then discusses the challenges and limits of human rights politics. It introduces examples of critical approaches to human rights, their theoretical foundations, and debates on the critique of human rights politics and the critical acceptance of the concept of rights. Finally, as an alternative approach for reconceptualizing rights alongside social identities, the course engages with queer theory and Foucault's concept of friendship. It concludes with discussions on emerging movements and identity-based rights claims that challenge the mainstream rights paradigm, supported by student presentations.²⁰
- GEN650 – Gender and Law: Theories & Methodologies (PhD in Women's Studies) Course Description: The course examines the relationship between political struggles and theoretical work, the conceptual field this relationship creates, and the political demands raised historically and their reflections in legal regulations and the field of law. It also reviews the methodologies developed within feminist and queer legal studies, applying these to question how law interacts with gender.²¹
- KHAS1736 – Politics of Human Rights (Core Curriculum) Course Description: This course approaches human rights as a category of politics rather than purely as a philosophical or legal matter. It understands rights as products of social movements and power relations at the intersection of law and politics. The course first analyzes the basic premises of contemporary human rights discourse, then focuses on the historical processes of identity-based rights struggles. It examines the possibilities and limits of human rights in combating discrimination and inequality, with a particular focus on political identities based on gender, sexual orientation, and gender identity. It introduces relevant political-legal concepts and minimum universal standards and ultimately discusses the role of politics in expanding international human rights standards.²²

6. CLEAN WATER AND SANITATION

KHAS ensures sustainable water management on campus through infrastructure maintenance, awareness campaigns, and the installation of filtered water dispensers. Water-saving devices, routine inspections, and targeted communication reduce waste and ensure efficient usage. These operational practices are integrated into environmental training for staff and students, reinforcing the University's commitment to sustainable resource management.

6.1. Events

Wednesday Conference: Assoc. Prof. Dr. Richard L. Kilpatrick, Jr., "Reflections on the Russian Oil Price Cap" (21 February 2024).²³

6.2. Projects

- Green Library Project: Water fountains and filtered dispensers were installed to provide free access to clean water.
- Occupational Health and Safety (ISG) Projects: Efforts are made to reduce water consumption while considering energy efficiency. Awareness signs and measures for water use are displayed in designated areas and on advertising boards across the university. Administrative and academic staff receive annual environmental training on water conservation. Systems to monitor and control water usage have been implemented, and regular maintenance of water pipes is conducted to prevent inefficient use.

6.4. Courses

- LAW474 – Climate Law (Elective) Course Description: This course addresses law, environmental protection, and climate change. Students will learn how law serves as a tool to prevent and mitigate problems caused by climate change and will be introduced to a series of definitions, concepts, and themes that provide fundamental knowledge of climate change.

- Faculty: Faculty of Art and Design | Program: Interior Architecture and Environmental Design (Undergraduate)
Course Description: IAR306 Interior Architecture Design Systems IV: Installation | Term: 2022–2023 / 2023–2024 Spring Semester | This course aims to provide fundamental knowledge and awareness of environmentally conscious and sustainable building approaches, including environmental design, passive and active design strategies, mechanical and plumbing systems, technical infrastructure, and fire safety. It equips students with a vision that incorporates environmental, economic, and social sustainability principles into professional practice.

7. AFFORDABLE AND CLEAN ENERGY

Energy efficiency and the transition to renewables are core priorities for KHAS. The University continuously upgrades lighting to LED systems, promotes energy-saving practices, and incorporates sustainability into academic programs. Faculty members organized and participated in international conferences on energy transition, European energy markets, and climate change. Courses like “Energy and Sustainability” and “Energy Security and Geopolitics” prepare students to address global energy challenges while supporting Türkiye’s green transition initiatives.

- Sevil Acar, Bora Kat, & A. Erinc Yeldan “Türkiye’de Elektrik Sistemi Dönüşümünün Sosyoekonomik Etkileri,” Sabancı University SHURA Report.
- Occupational Health and Safety (ISG) Projects:
 - o Regular meter monitoring and maintenance are conducted to track energy savings; safety breakers are installed to prevent electrical leakage.
 - o LED lighting is used across the university to reduce electricity consumption. All newly purchased equipment, machinery, and devices are selected with energy efficiency in mind.
 - o The new Engineering Building incorporates heat recovery systems to optimize HVAC operations. Heat energy recovered from indoor air is reused, ensuring energy consumption is managed efficiently.
- Faculty: Faculty of Art and Design | Project Type: TÜBİTAK 1001 | Project Title: Determination of Visual Comfort Variables in Workspaces Based on Human-Centered Lighting and Energy Performance Requirements | Project Leader: Prof. Dr. Banu Manav | Researchers/Experts:
 - o Prof. Dr. Selahattin Adil Sarıbey (Kadir Has University)
 - o Prof. Dr. Mehmet Timur Aydemir (Kadir Has University)
 - o Asst. Prof. Dr. Burcu Çiğdem Yılmaz (Kadir Has University)
 - o Res. Asst. Dr. Egemen Kaymaz (Uludağ University)
- Project Period: 10 December 2023 – 10 August 2026 | Summary: The project examines the structure of lighting systems used in today’s work environments. It will investigate visual comfort variables and the importance of human-centered lighting design in a full-scale (1:1) controlled experimental environment. Another goal is to determine the energy performance levels of recommended lighting scenarios that achieve optimal lifetime cost efficiency. Within the human-centered lighting approach, the project will measure the improvement rate of lighting energy performance achieved through the combined use of dynamic LED luminaires and lighting control strategies.

8. DECENT WORK AND ECONOMIC GROWTH

Kadir Has University fosters inclusive economic growth and supports decent work opportunities through research, entrepreneurship, and student engagement. The University's Teknopark and entrepreneurship programs encourage students and alumni to develop innovative solutions in the technology and creative industries. TÜBİTAK-funded projects explore new strategies for market development and sustainable business practices, while career workshops and internship programs connect students to local and international employers. Social responsibility courses and collaboration with municipal partners allow students to actively participate in projects that enhance employability and contribute to the local economy.

- Faculty: Faculty of Art and Design | Project Type: TÜBİTAK 1001 | Project Title: Gender Dynamics of Skilled Migrant Women's Labour Migration and Urban Life Experiences: The Case of Istanbul | Program Code: 1001 | Project No: 221K001 | Project Leader: Assoc. Prof. Dr. Ezgi Tuncer | Scholarship Holders: Ela Gök, Liana Kuyumcuyan, Sare Nur Avcı – MA in Architecture and Urban Studies | Project Period: 01.04.2022 – 01.11.2023 | Summary: This project explores the socio-spatial dynamics shaping the migration, settlement, daily life practices, and urban experiences of highly educated (skilled) migrants living and working in Istanbul. It examines the migration reasons and processes of middle-class, transnational communities from the Global North and Global South, investigating their urban life experiences (home, work, and socialization) at the intersection of gender, nation, and ethnicity (identity and origin). The study highlights that these well-educated migrants, often perceived as a privileged “expat” group, are in fact transnational middle classes who may face precarity, economic crises, conflict, and repressive regimes. It aims to reveal the discriminatory practices they encounter in Istanbul and to contribute to the development of new urban and legal policies to improve their living conditions.

9. INDUSTRY, INNOVATION AND INFRASTRUCTURE

KHAS actively promotes innovation and infrastructure development through its interdisciplinary research projects, technology-focused curricula, and collaborative initiatives. Engineering and design programs focus on sustainable construction, smart cities, and digital transformation in industry. Research centers and laboratories support projects in energy systems, industrial design, and urban mobility, contributing to Türkiye's innovation ecosystem. Partnerships with Teknopark Silivri and external institutions provide students and faculty with opportunities to pilot solutions that strengthen industrial competitiveness and advance sustainable infrastructure.

9.4. Courses

- LAW433 – Information Technology Law (Elective) Course Description: Covers the hybrid structure of IT law and contemporary, debated topics including crypto assets, unfair competition on the internet, the legal dimension of artificial intelligence, and smart contracts⁴⁴
- LAW436 – Capital Markets Law (Elective) Course Description: Capital markets, as a component of financial markets, are strictly regulated and supervised both globally and in Türkiye. The main objectives are to ensure market efficiency, provide corporate financing, and effectively protect investor rights. This course examines Capital Markets Law, the secondary legislation issued by the Capital Markets Board, and the fundamental principles established to achieve these goals⁴⁵
- LAW 455 – Algorithms, Rights, and Liabilities (Elective) Course Description: This course explores the impact of artificial intelligence and algorithms on criminal, contract, and labour law processes, providing students with a comprehensive understanding of the challenges posed to these legal areas by the digital future.⁴⁶

- LAW460 – Financial Technologies and Law (Elective) Course Description: Focuses on the relationship between emerging financial technologies and the law, as well as the application of existing legal frameworks to these new fields. Using case-based learning, the course prepares students for legal issues they may encounter in practice, while improving teamwork and presentation skills.⁴⁷
- LAW462 – Legal Design (Elective) Course Description: 1) Introduction to the concept and significance of legal design; 2) Fundamentals and principles of design; 3) Methods for applying legal design in different areas of law; 4) Conducting sample legal design exercises.⁴⁸
- LAW471 – Artificial Intelligence and Work Life (Elective) Course Description: Examines the impact of artificial intelligence and algorithms on labour law processes, providing students with a comprehensive understanding of the challenges posed to labour law by future digital environments.⁴⁹
- LAW472 – Neuroscience and Law (Elective) Course Description: Modern legal systems often assume that humans are conscious beings with free will, which is a foundational concept for legal personality and responsibility. Legal accountability requires that actions and transactions are carried out knowingly and voluntarily. However, since the 1980s, developments in neuroscience have increasingly challenged this assumption. This course examines whether advances in neuroscience might require future legal systems to rethink the basis of legal responsibility.⁵⁰
- KHAS1738 – Protection of Personal Data in the Digital Age (Core Curriculum) Course Description: Systematic exploration of regulations and court cases in personal data protection law, including: definition and scope of personal data, cookies and data tracking, BigTech (GAFAM) data processing, consent and its validity, the right to be forgotten, big data, post-mortem personal data protection and digital inheritance, the economic value of personal data in contracts, and the benefits and risks of deepfakes.

10. REDUCED INEQUALITIES

The University is committed to reducing inequalities by offering merit-based and need-based scholarships, meal grants, and inclusive educational programs for disadvantaged students. Outreach projects focus on empowering underrepresented groups, including youth from socioeconomically challenged backgrounds and migrant communities. Through initiatives such as Wikipedia gender-gap editing, E-Gen modules for young men, and partnerships with civil society organizations, KHAS fosters awareness of social equity and the importance of inclusion in both local and global contexts.

10.2. Projects

- Equal Access for All (2023): Unlimited, long-term loan options and courier delivery services ensured continuous, barrier-free access to learning resources.
- Service to External Users (2023): Library facilities were opened to society at large, particularly to members of other universities; 48 external users visited in 2023.
- Democratising Access to Information (2024): An “Open Door and Democratisation of Information Access” policy for external users was adopted in June 2024.
- Equal Access for All (2024): Unlimited, long-term loans and courier shipping services continued.
- Volkswagen Foundation and Novo Nordisk Foundation–funded international project led by Asst. Prof. Dr. Sibel Karadağ.
- Doctors on the Move: Transnational Research into Healthcare Migration (TREATMi) – Project Director: Sibel Karadağ – July 2024.
- Faculty: Faculty of Art and Design | Unit/Center: TÜBİTAK 1001 | Project Title: Gender Dynamics of Skilled Migrant Women’s Labour Migration and Urban Life Experiences: The Case of Istanbul | Program Code: 1001 | Project No: 221K001 | Project Director: Assoc. Prof. Dr. Ezgi Tuncer | Fellows: Ela Gök, Liana Kuyumcuyan, Sare Nur Avcı – MA in Architecture and Urban Studies | Project Period: 01.04.2022 – 01.11.2023 |
- Project Summary: This research investigates the socio-spatial dynamics shaping the migration, settlement processes, daily practices, and urban spatial experiences of highly educated (skilled) migrants living and working in Istanbul. The study focuses on middle-class transnational communities from both the Global North and Global South, examining their reasons and processes of migration, urban life experiences (housing, work, and socialization), and intersections of gender, nationality, and ethnicity (identity and origin). It argues that highly educated migrants, often perceived as “expats,” also include transnational middle classes who face precarity, economic crises, wars/conflicts, and oppressive regimes. The project aims to reveal the discriminatory practices they encounter in Istanbul and to contribute to the development of new urban and legal policies to improve migrants’ living conditions.

- ISG Projects: Kadir Has University carried out renovation works on accessibility ramps to ensure that individuals with disabilities can move safely and comfortably around the campus.

- Artistic Research Project | ACT – Artistic Freedom and Children’s and Youth’s Perspective in the Arts in Türkiye | Project Director: Lecturer Özlem Özhabes | Project Researchers: Assoc. Prof. Dr. Zeynep Günsür Yüceil, Asst. Prof. Dr. Özlem Hemiş | Project Start Date: 01.06.2022 | Project End Date: 31.05.2024 | Funded by the Swedish government and initiated by the KHAS Theatre Department, “ACT” is a research and educational project focused on children’s and youth theatre. Conducted in collaboration with Sweden’s Unga Klara – the Swedish National Children and Youth Theatre – as well as Mordem Sanat (Diyarbakır) and K2 Contemporary Art Association (İzmir), the project spans two years and aims to train current and future creative practitioners working in this field.⁵⁷
- Artistic Education Research Project | Boundary Crossing – Artistic Research in Context | 20.03.2023 – 12.05.2023 | Partners: HKU (University of the Arts Utrecht), Glej (Theatre-Production / Ljubljana), Kadir Has University Theatre Department (Istanbul) | This pilot project, focusing on interdisciplinary artistic production, aims to encourage young artists to diversify their creative practices and production tools, conduct research through cross-disciplinary collaborations, and open new areas of critical and creative thinking. It emphasizes and promotes collective working and exploration.
- Artistic Education Research Project | Boundary Crossing – Artistic Research in Context | 23.09.2024 – 18.10.2024 | Partners: Glej Theatre (Ljubljana, Slovenia), HKU University of the Arts Utrecht, and Kadir Has University (Istanbul) | This project, which started as a pilot in 2021, continues into 2025 as an experimental educational program connecting young theatre makers from the participating countries. Boundary crossing reflects not only geographical and theatre practice exchanges but also the negotiation of individual creative processes and working methods. Its methodology supports participants in developing theatre-making practices across multiple contexts, enabling them to evaluate work from diverse perspectives, roles, and cultural frameworks.

- Faculty: Faculty of Art and Design | Financial Manager, Member of the Türkiye Management Committee | Erek, A. | CA 18204 “Dynamics of Placemaking and Digitization in Europe’s Cities,” EU COST Project | 2019 – 2024
- Free textbooks and course materials were provided to disadvantaged and economically vulnerable students through sponsorships from publishers, ensuring equal access to educational opportunities for all.
- To support the academic life of students with disabilities and facilitate their learning experience, several inclusive practices were implemented:
 - o Courses are held in accessible, barrier-free classrooms.
 - o When needed, students take exams in quiet, separate environments with specially prepared formats to prevent any disadvantage in evaluation processes.
 - o Guidance and counseling support are provided to ensure the full and effective participation of students with disabilities in university life. (School of Foreign Languages – YDYO)

11. SUSTAINABLE CITIES AND COMMUNITIES

KHAS integrates sustainability into urban life through research, education, and community engagement. Courses in architecture, urban studies, and cultural heritage preservation examine the dynamics of urban transformation and propose solutions for resilient cities. Student social responsibility projects engage with local neighborhoods through zero-waste workshops, children's activities, and cultural events. The University also contributes to sustainable urban development through collaborations with municipalities and NGOs, emphasizing the preservation of cultural assets, inclusive urban design, and environmentally responsible practices.

 - o Project Lead: Prof. Dr. Banu Manav (KHAS)
 - o Duration: 10/12/2023 – 10/08/2026
 - o Summary: This research focuses on the structure of lighting systems used in modern workspaces. It investigates visual comfort variables and the significance of human-centered lighting design in a 1:1 scale controlled environment. The study also aims to determine optimal energy performance levels across different lighting scenarios and to assess the improvement rate in energy efficiency achieved through dynamic LED luminaires combined with lighting control strategies.

 - o Project Title: Gender Dynamics of Skilled Migrant Women's Labour Migration and Urban Life Experiences: The Case of Istanbul
 - o Project Code/Number: 1001 / 221K001
 - o Project Lead: Doç. Dr. Ezgi Tuncer
 - o Duration: 01.04.2022 – 01.11.2023
 - o Summary: This project examines how socio-spatial dynamics shape the migration and settlement processes, daily practices, and urban experiences of highly educated (skilled) migrant women living and working in Istanbul. It focuses on middle-class transnational communities from both the Global North and South, exploring their reasons for migration and experiences of urban life (housing, work, socialization) at the intersection of gender, nationality, and ethnicity. The study highlights that these migrants, often perceived as “privileged expats,” also face precarity and discriminatory practices, aiming to inform new urban and legal policies to improve their living conditions.

11.4. Courses

- KHAS1216 – The Nature of the City: A Political Ecology Perspective on the City
- LAW335 – Anthropology and Law (Elective) Course Description: This course examines law and the mechanisms of modern legal systems, including human rights, through an anthropological lens. It begins by introducing the field, purpose, and methods of anthropology as an independent discipline. The course then explores the inseparable relationship between legal anthropology and the fields of cultural and political anthropology, including their historical development. Special emphasis is placed on the works of anthropologists who study legal phenomena in simple societies. Building on these foundations, the course critically analyzes contemporary approaches to international human rights law from the perspective of anthropology. Following these critical approaches, it investigates the Western roots of the universal human rights regime and highlights the role of anthropology in understanding local challenges to universal human rights. Ultimately, the course focuses on reconsidering the possibilities and limitations of international human rights law through anthropological engagement with rights.⁷¹
- KH518 – Cultural Rights
- Course Description: This course first examines the emergence of minority rights and their application by various judicial bodies. Second, it analyzes Türkiye's position within the framework of the international minority rights regime.⁷²

- Faculty: Faculty of Art and Design | Program: Interior Architecture and Environmental Design (Undergraduate)
Course: IAR306 – Interior Architecture Design Systems IV: Installation | Semester: Spring 2022–23 / Spring 2023–24
Course Description: This course aims to provide students with fundamental knowledge and awareness of environmentally conscious and sustainable building practices. It addresses environmental design, passive and active design strategies, mechanical and sanitary systems, technical infrastructures, and fire safety. Students are encouraged to develop a professional vision that integrates environmental, economic, and social sustainability principles in architectural practice.
- Faculty: Faculty of Art and Design | Program: Interior Architecture and Environmental Design (Undergraduate)
Course: IAR356 – Sustainability and Built Environment | Semester: Fall 2023–24 / Fall 2024–25
Course Description: This course introduces fundamental concepts of sustainability in the design of the built environment. Addressed through an interdisciplinary approach, sustainability is discussed in environmental, economic, and social dimensions and evaluated at building, façade, spatial, and material scales. The course aims to develop students' awareness of long-term design impacts, optimization of resource use, and the enhancement of quality of life.
- Graduate School | Program: Design
 - o Course: Design, Art and Urban Space
 - o Instructor: Ayşe Ereğ
 - o Semester: Spring 2023–24

12. RESPONSIBLE PRODUCTION AND CONSUMPTION

Responsible production and consumption practices are embedded in both campus operations and the academic curriculum. KHAS implements strict waste management protocols aligned with national regulations, separating paper, plastic, glass, metal, medical, and electronic waste. Recyclable materials are collected by licensed companies, and leftover food supports street animals. Courses and workshops on sustainability, circular economy, and social innovation raise awareness among students, while operational measures, such as optimizing catering services to prevent overproduction, reinforce the University's commitment to responsible resource use.

12.2. Projects

- Center for Liability Law Practice and Research.⁷⁵
- Green Library Project: Implemented initiatives in waste management, water conservation, energy efficiency, and ensured free access to clean water through fountains and filtered dispensers.
- Book Donation Campaigns (2023): 9,477 volumes donated to schools, penal institutions, universities, and municipalities; “gift-a-book” drives were organized with the participation of university members.
- Book Donation Campaigns (2024): 8,609 volumes donated to ten beneficiary institutions, continuing the “gift-a-book” initiative.

- “A Life Cycle Analysis-Supported Industrial Symbiosis Model” – Volkan Ş. Ediger
- Faculty of Art and Design | Financial Manager, Türkiye Management Committee Member | Ereğ, A.
- CA18204 – “Dynamics of Placemaking and Digitization in Europe’s Cities,” EU COST Project (2019–2024).
- Faculty of Art and Design | Industrial Design Department | Workshop Collaboration within IND303 Contemporary Conceptual Approaches in Design
 - o Workshop: Advanced Upcycling with Pınar Akkurt
- Sustainability Practices in Education:
 - o Educational materials were digitized, reducing the need for printing and encouraging sustainable resource use.
 - o Paper consumption quotas were implemented for academic and administrative staff to prevent waste.
 - o These practices contribute to energy and resource savings, supporting the university’s environmental sustainability goals. (School of Foreign Languages – YDYO)
- OHS / Sustainability Projects (ISG Projects): Kadir Has University has initiated a zero-waste management process by procuring the necessary equipment in line with the Zero Waste Regulation. Packaging waste is separated using triple-set bins. Paper-cardboard, plastic, metal, and glass waste are collected separately. Special waste, including used batteries, fluorescent lamps, and hazardous laboratory waste, is also collected and stored separately to ensure safe disposal.
- Waste Management and Zero-Waste Certification Kadir Has University has established a zero-waste system to reduce the amount of waste released into nature and to increase recycling rates. In 2024, basic-level Zero Waste Certificates were obtained for each campus building from the Provincial Directorate of Environment, Urbanization and Climate Change.

⁷⁵<https://www.khas.edu.tr/law-arastirma-merkezleri/>

- Recyclable Waste Management
- The university systematically separates paper, glass, plastic, metal, and hazardous waste and monitors their recycling performance annually:
- 2023 Waste Recycling Distribution:
 - o Paper waste recycling: 15%
 - o Other recyclable waste (glass-plastic-metal-mixed): 66%
 - o Recycled hazardous waste: 19%
- 2024 Waste Recycling Distribution:
 - o Paper waste recycling: 64%
 - o Other recyclable waste (glass-plastic-metal-mixed): 26%
 - o Recycled hazardous waste: 10%

This course explores the principles of sustainability and ethical practices in business, focusing on corporate social responsibility (CSR), ethical decision-making, and the long-term environmental and social impacts of business operations.
- **BUS302 – Business Communication and Ethics**
This course focuses on effective business communication strategies while integrating ethical considerations into professional interactions. Students develop skills in corporate correspondence, presentations, and ethical decision-making in workplace contexts.
- **Course: IAR306 – Interior Architecture Design Systems IV: Installation | Semester: Spring 2022–23 / 2023–24**
Course Description: This course introduces environmentally conscious and sustainable construction approaches, covering environmental design, passive and active design strategies, mechanical and plumbing systems, technical infrastructure, and fire safety. It aims to equip students with a vision that incorporates environmental, economic, and social sustainability principles into professional practice.
- **Course: IAR356 – Sustainability and Built Environment | Semester: Fall 2023–24 / 2024–25**
Course Description: This course introduces the fundamental concepts of sustainability in the design of the built environment, emphasizing an interdisciplinary approach that integrates environmental, economic, and social dimensions. Students analyze design decisions at the building, façade, space, and material scales, developing awareness of long-term impacts, resource optimization, and quality of life improvements.
- **Course: History of Industrial Design (Instructor: Ayşe Erek) | Semester: Spring 2023–24**
Course Description: This course examines the history of industrial design from the 19th century to the present, focusing on the evolution of products, production methods, and design movements in a socio-cultural context.

13. CLIMATE ACTION

The University addresses climate change through education, research, and awareness campaigns. Faculty members organize conferences and seminars on climate law, sustainable energy, and environmental ethics, while research projects investigate the social and economic implications of climate change in Türkiye and beyond. Students participate in zero-waste and environmental awareness projects as part of KHAS110, cultivating a culture of climate responsibility on and off campus. Operationally, the University continues to implement energy efficiency projects and green campus initiatives that contribute to emission reduction and environmental protection.

13.2. Projects

- Green Library Project
- Implemented climate-aligned initiatives, including tree donation schemes, energy-saving practices, waste management, water-saving, and access to clean drinking water via fountains and dispensers. Supports awareness-raising for climate action and environmental responsibility among students and staff.
- Faculty: Art and Design Faculty | Program: Interior Architecture and Environmental Design | Course: IAR356 Sustainability and Built Environment
Conducted in collaboration with Horizon Strategic Management Consulting Ltd. under a Project-Based Learning Partnership. Focused on sustainable built environment practices, resource-efficient design strategies, and climate-conscious architectural solutions.
- TÜBİTAK 121K522 Project (2021–2024) | Title: “European Green Deal: Threats and Opportunities for Türkiye – A Comprehensive and Dynamic General Equilibrium Analysis”
Provided policy-oriented insights on Türkiye's transition under the EU Green Deal, aligning economic modeling with climate action strategies.

- **Project Proposal: Eco-Equality – A Just Transition Based on Gender Equality (Submitted) |** Funding programs targeted: Civil Society Support Foundation (STDV), Borusan Sustainable Benefit Program, Canada Fund Aims to integrate gender equality into climate action and just transition strategies.
- **ISG Projects – Energy Use and Efficiency**
Kadir Has University's energy needs primarily arise from heating, cooling, and lighting in both building interiors and outdoor campus areas. Energy is supplied through natural gas and electricity, with consumption data as follows:

Year	Electricity Consumption (kWh)	Natural Gas Consumption (m³)
2023	2,728,822.47	232,207.00
2024	3,228,107.73	210,428.00

- **Campus Energy Profile**
 - o Total active indoor campus area (including Selimpaşa Campus): 39,722 m²
 - o Active outdoor area: 18,973 m²
 - o Energy share by source: 51% from electricity and 49% from natural gas
- **Energy Efficiency Measures Implemented**
 - o LED lighting conversion across campus outdoor and indoor lighting systems.
 - o Transition to Class A-rated energy-efficient heating and cooling equipment, enabling optimized temperature control and reduced energy consumption.
 - o Continuous monitoring and maintenance of energy systems to minimize waste and enhance sustainability

 - o Graduate Program: Cultural Heritage Conservation (MA, Thesis/Non-thesis)
 - o Focus: raises awareness of Anatolian cities and their conservation needs, equips students with critical approaches for applying appropriate methods in heritage protection.

14. LIFE BELOW WATER

KHAS contributes to the protection of aquatic ecosystems through environmental education, research projects, and awareness activities. Students engage in projects focused on reducing water pollution and understanding the ecological significance of marine and freshwater habitats. The University's courses on environmental science and sustainable design emphasize the need to protect aquatic life, while community projects raise awareness on proper waste disposal to prevent marine pollution in Istanbul's waterways.

14.1. Events

- CCLLab Seminar: Dr. Alfredo Crosato Neumann, "The ITLOS Advisory Opinion on Climate Change: Key Findings and Prospects," held on 04 June 2024.⁹⁴
- International Program Participation: 5th Session of the International Law of the Sea Summer Academy, conducted between 24 July and 04 August 2023.⁹⁵

14.2. Projects

- KHAS110 with the Social Support & Solidarity Club: Student projects included awareness-raising and clean-up activities focused on marine pollution.
- ISG Projects: Kadir Has University is located on the shore of the Golden Horn (Haliç). Measures are implemented to prevent any waste or wastewater from entering the sea. Wastewater is separated as rainwater and sewage from sinks and toilets, then sent to treatment facilities via the sewer system. Liquid waste originating from laboratories is collected separately and sent to licensed disposal or recycling facilities.
- KHAS110 with the Social Support & Solidarity Club: student projects included awareness-raising and clean-up activities on marine pollution.

14.3. Publications

- **Türkiye's Black Sea Policies (1991–2023) and Changing Regional Security Since the Russian Invasion of Ukraine**
Author(s): Aydın, M.
Year: 2024
- **Evaluation of container port sustainability using WASPAS technique using on type-2 neutrosophic fuzzy numbers**
Author(s): Kayapınar, S., Kundu, P., and Faruk Görçün, Ö.
Year: 2023

14.4. Courses

- LAW474 – Climate Law (Elective)
This course addresses law, environmental protection, and climate change. It introduces students to how law can serve as a tool to prevent and mitigate the problems caused by climate change and provides a series of definitions, concepts, and themes that form the basis of understanding climate change.⁹⁶

15. LIFE ON LAND

The University supports biodiversity and the protection of terrestrial ecosystems through research, education, and campus initiatives. Green spaces on campus are maintained with biodiversity in mind, and leftover food from campus dining is used to feed street animals, reducing waste while supporting the local ecosystem. Academic programs in architecture and environmental design include modules on sustainable land use, heritage preservation, and ecological urbanism, preparing students to address pressing environmental challenges.

15.1. Projects

- **Green Library Project:** Land-life-aligned initiatives were implemented, including tree donation activities.
- **KHAS110 with the Four-Legged City Association:** Students worked on stray-animal issues in Istanbul, such as supporting a veterinary database for disaster response, designing primary-school lessons on animal rights, and analysing social-media hate speech and violations.
- **SG Projects:** Kadir Has University conducts regular planting activities to protect nature and to revitalize its green and arid areas.

16. PEACE, JUSTICE, AND STRONG INSTITUTIONS

KHAS advances peaceful, just, and inclusive societies through its legal studies, human rights programs, and community outreach. Courses on human rights politics, gender and law, and contemporary legal theory equip students with the tools to analyze and promote social justice. The University regularly hosts seminars, workshops, and conferences on the rule of law, democratic governance, and ethical leadership. Collaborative research and public engagement initiatives contribute to policy discussions and strengthen institutional integrity in both local and international contexts.

- Prof. Dr. Nilay Arat presented her paper “Accessibility of Public Services” at the Disabled Rights Conference I on 17 November 2023.

16.2. Projects

- Right of Access to Information (2023): KHAS adhered to the principle that access to information is a fundamental human right.
- Academic Open Access (2023): Dissemination of research outputs to society promoted transparency and supported access to knowledge.
- Right of Access to Information (2024): The University continued to uphold the principle that access to information is a human right.
- Open-Access Policies (2024): The visibility, accessibility, and sharing of scientific outputs were encouraged.
- Access to Cultural Heritage (2024): Key archives were made available to researchers through National Cultural Documentation initiatives.
- KHAS110 theoretical component included topics such as non-violent communication, social justice, community empowerment, and civic engagement.
- KHAS110 collaborated with the Hrant Dink Foundation to provide training and workshops on social justice, hate speech, inclusive language, and collective memory.
- Human Rights Research and Application Center was active in promoting and supporting human rights education and research.¹⁰⁵
- TÜBİTAK 3501 – Career Development Program, led by Assist. Prof. Dr. Ayşe Başak Topaler, was titled “An Analysis of the Effects of External Shocks on the Establishment, Structure, and Performance of New Ventures.”
- Faculty of Art and Design | Unit: TÜBİTAK 1001 Project | “The Gender Dynamics of Skilled Migrant Women’s Labour Migration and Urban Life Experiences: The Case of Istanbul” (Program Code: 1001, Project No: 221K001), supervised by Assoc. Prof. Dr. Ezgi Tuncer with bursary students Ela Gök, Liana Kuyumcuyan, and Sare Nur Avcı (Urban and Architectural Studies MA Program). Project period: 01.04.2022 – 01.11.2023. This research explored the socio-spatial dynamics shaping the migration, settlement, and urban life experiences of highly educated (skilled) migrants living and working in Istanbul. It examined the migration reasons and urban practices (housing, work, social life) of middle-class, transnational communities from both the Global North and South, highlighting that these educated migrants are not simply “expats” but also experience precarity due to economic crises, conflicts, and oppressive regimes. The project aimed to reveal discriminatory practices they face in Istanbul and contribute to new urban and legal policies to improve their living conditions.

- Artistic Educational Research Project | Boundary Crossing – Artistic Research in Context | 20.03.2023 – 12.05.2023 | Partners: HKU University of the Arts Utrecht – Glej Theatre, Ljubljana – Kadir Has University Theatre Department, Istanbul. This pilot project focused on interdisciplinary artistic production, encouraging young artists to diversify their creative methods and tools, foster collaboration across disciplines, and explore new thinking processes. A collective approach to working and creative exploration was emphasized.
- Artistic Educational Research Project | Boundary Crossing – Artistic Research in Context | 23.09.2024 – 18.10.2024 | Glej Theatre, Ljubljana, Slovenia, in collaboration with HKU University of the Arts Utrecht and Kadir Has University, Istanbul, launched the next phase of the Boundary Crossing project. Originally piloted in 2021, the project continues into 2025 as an experimental educational program linking young theatre makers from participating countries. “Boundary crossing” refers to crossing borders between countries, theatre practices, and individual thinking and working methods. The methodology aims to enable participants to develop their theatre-making practices through negotiation of multiple contexts, encouraging them to create and evaluate work from diverse perspectives, relationships, cultures, and roles.

17. PARTNERSHIPS FOR THE GOALS

Partnerships are central to KHAS's sustainability strategy. The University collaborates with international networks, civil society organizations, municipalities, and EU-funded projects such as Erasmus+ to advance the Sustainable Development Goals. Through initiatives like GenderEX, Boundary Crossing, and social responsibility projects with TİDER and local NGOs, KHAS leverages cross-sector collaboration to enhance social impact. By connecting research, education, and community engagement, the University strengthens its role as a hub for sustainable development partnerships at the local, national, and global levels.
