

LaA user guide for the locked-down exam browser integrated into the KHAS Learn infrastructure to ensure the security of online exams conducted in laboratory environments.

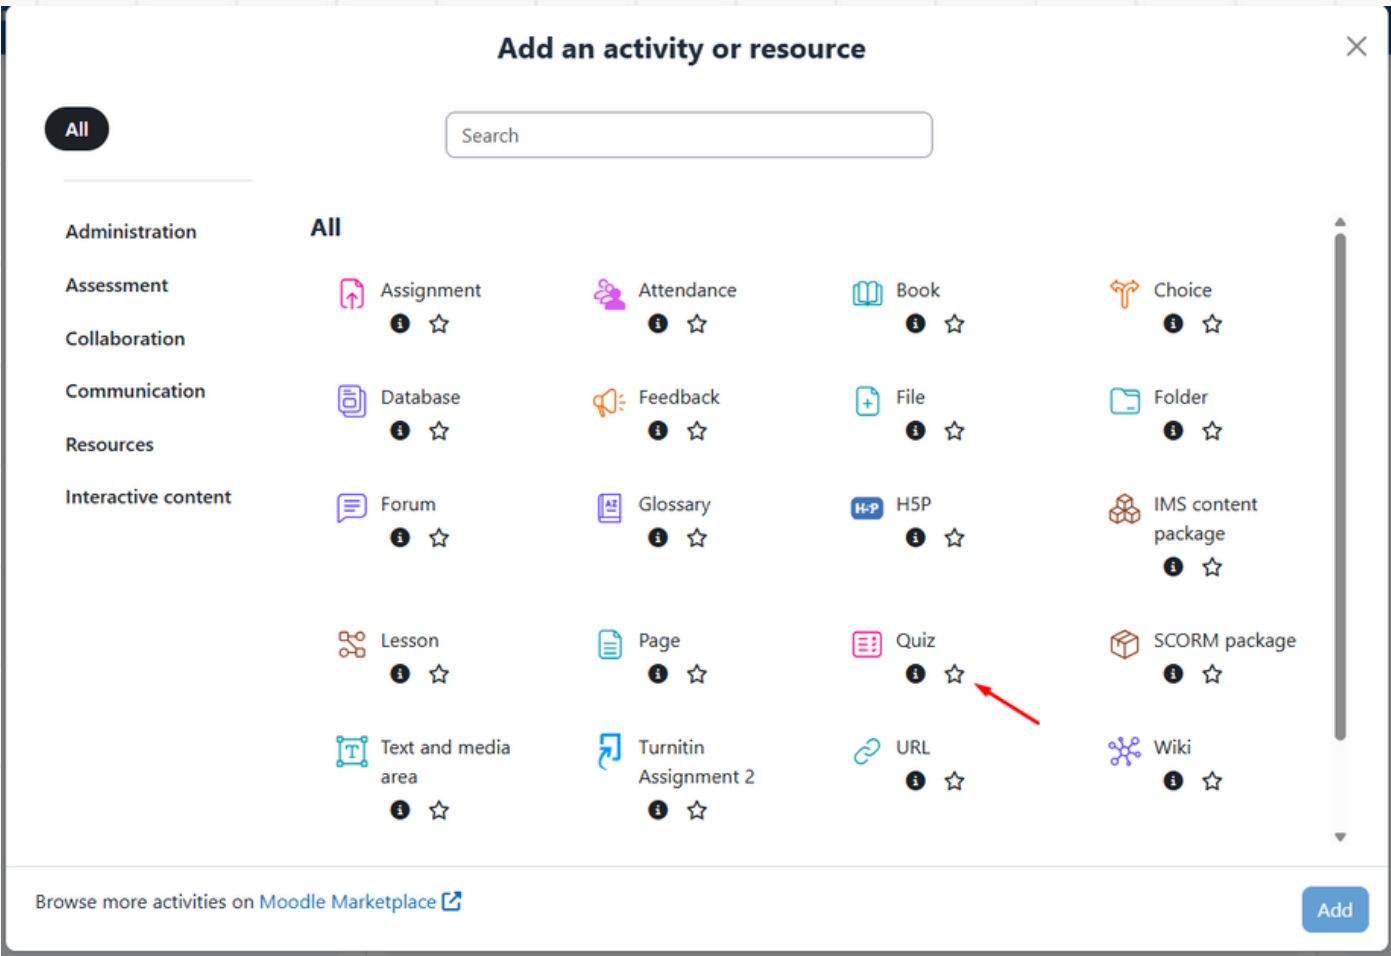

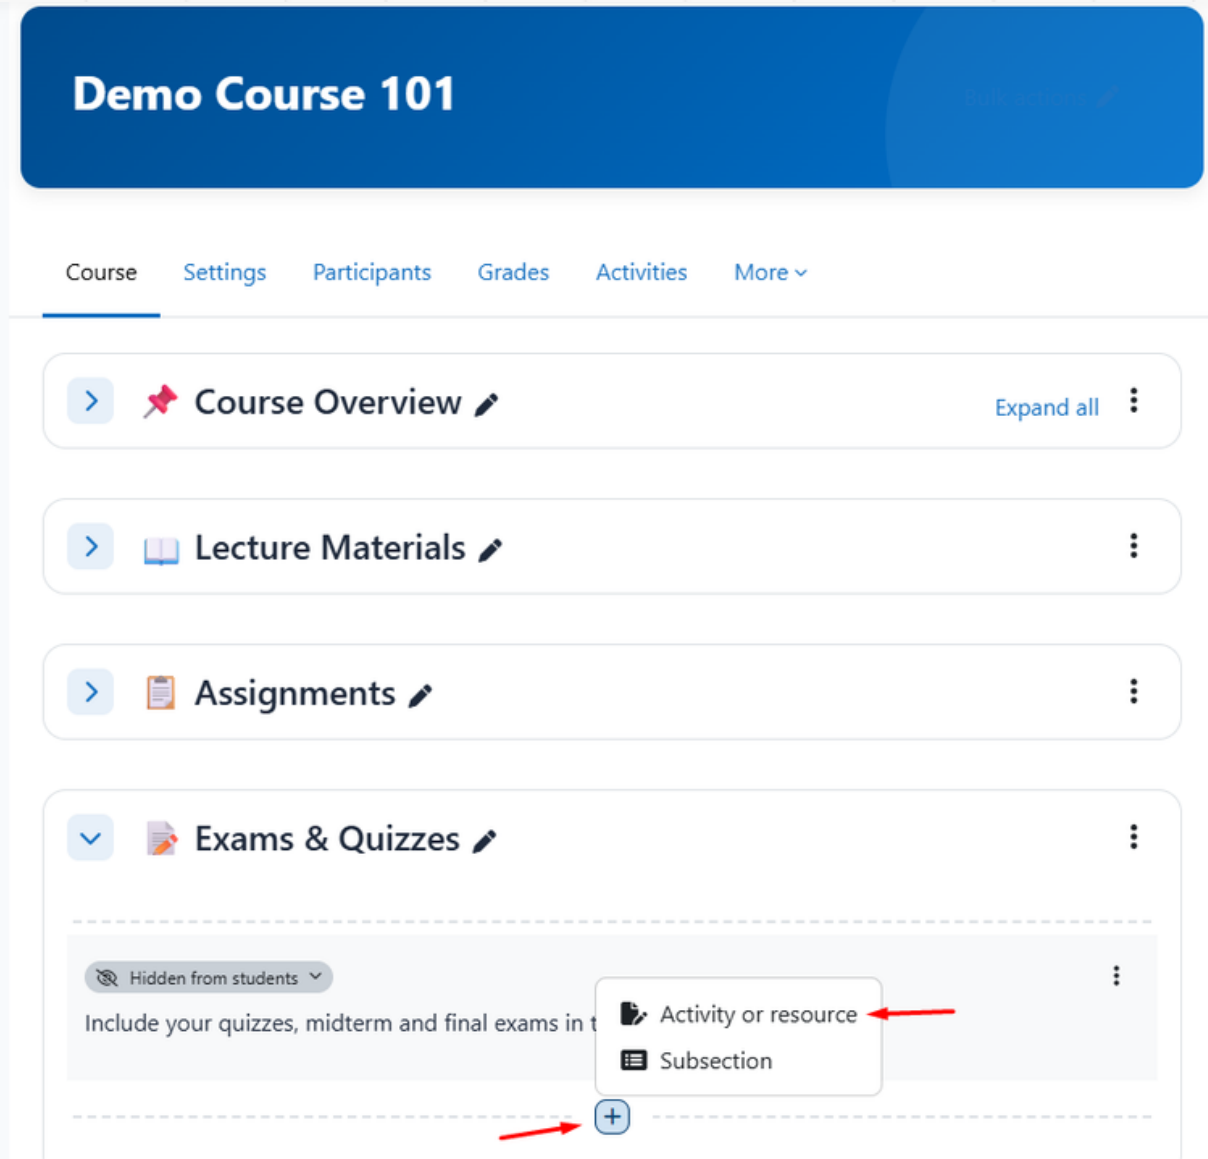

KADIR HAS UNIVERSITY LEARNING MANAGEMENT SYSTEM – KHAS LEARN

Step 1: Create the Quiz Activity

On your course page, click the **Turn editing on** button located at the top right. Navigate to the relevant week/topic, click **Add an activity or resource**, and select **Quiz** from the list.

- Enter the Quiz name and general description.
- Expand the **Timing** section to set the opening date, closing date, and time limit.

AStep 2: Enable the SEB Template

Scroll down to the **Safe Exam Browser** section on the quiz settings page and expand it:

- **Require the use of Safe Exam Browser:** Select **Yes – Use an existing template**
- **Safe Exam Browser template:** **KHAS Lab Sınav Şablonu** from the dropdown menu.

Important Note:

When this template is selected, network access restrictions and lock-down settings are automatically loaded by KHAS Learn. You do not need to upload an external configuration file or make additional manual settings.

If you have special requirements, custom software permissions, or non-standard configuration requests for your exam, please contact the Center for Excellence in Learning and Teaching (CELT) team prior to your exam date.

The screenshot shows the 'Safe Exam Browser' settings section. It includes the following options:

- Require the use of Safe Exam Browser:** Set to 'Yes – Use an existing template' (indicated by a red arrow).
- Safe Exam Browser config template:** Set to 'KHAS Lab Sınav Şablonu' (indicated by a red arrow).
- Show Safe Exam Browser download button:** Set to 'Yes'.
- Enable quitting of SEB:** Set to 'Yes'.
- Quit password:** A text input field with the placeholder 'Click to enter text' and a password icon.
